April 2016

MISS LINDSAY'S TODDLER ROOM

March was a month full of celebration and alphabets.

We learned all the letters between E and I! And started exploration of advanced mathematics and yummy pie with Pi Day. St. Patricks Day and Naseer's birthday were the same week. So much fun was had by all.

The week after brought Easter and the first day of Spring. Our whole school had an Easter egg hunt.

Smiles, Miss Lindsay

MISS ANA MARIA'S CHILDREN HOUSE #1

Our friends in Children's House 1-1 have been busy this month, working on the letters "U", "V" and "W". We have studied words that begin with these letters, such as "umbrella", "violin" and "walrus". In music class, Miss Sharon let us play the Djembe drum. We all took turns and made a lot of drum music! We welcomed two new friends into our classroom this month; William and Siyuan. March brought Leprechauns and an Easter Egg Hunt! In the month of April, we will be reviewing the alphabet and planting flowers. We are so happy to have such wonderful friends!

Miss Ana Maria and Miss Vicky

MISS HAYLEY'S CHILDREN HOUSE 1

March was a month of many celebrations: birthdays, St. Patrick's Day and Easter. .

There are so many different ways for children to learn letters. During T week we talked about trucks, but we used the sense of touch to practice writing in sensory bags that we made ourselves. When we learned U, we learned the words up and under and practiced those motions.

Easter week we made egg crafts and broke cascarones over heads, but we also studied volcanoes. The next week, we learned about whales and other sea animals.

Thank you for support and encouragement,

Miss Hayley

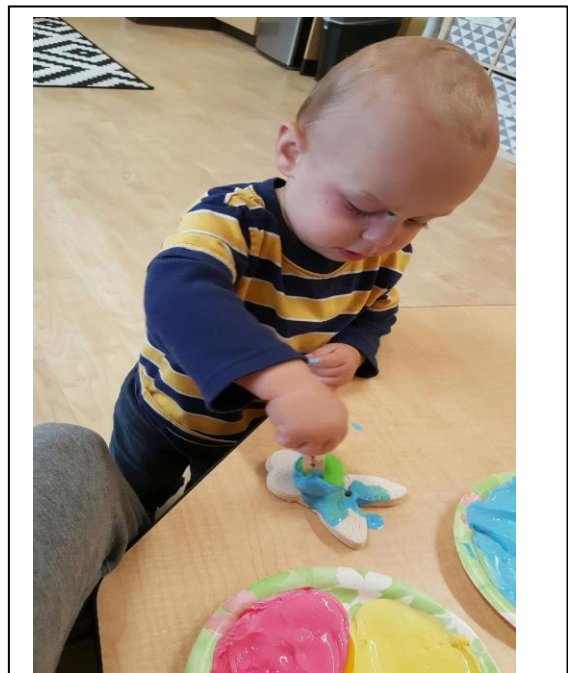

MISS KENDALYN'S

TODDLER ROOM

We had a Fantastic March in Toddler Room 1!

We went over the letters U, V, and W! We also had a great time celebrating St. Patrick's Day and Easter in this Month. We have been learning about words that begin with these letters and how to sound them out or at least we try to! We have done many crafts with our Toddlers in order to help word association with our letters. For St. Patrick's Day, we Celebrated Green all week and became LepreCuties! For Easter, we had an Easter Egg Hunt, colored eggs, and painted Bunny Rabbits. We are so excited for April!

With Love, Miss Kendalyn and Miss Tori

MISS MARIA'S CHILDREN'S HOUSE 2

In March, we thought about where we live: in a galaxy, in a solar system, on a planet, on a continent, in a nation, in a state, in a town and in a home. Our class continues to love maps, atlases and globes. The children also love planets and will make solar systems out of any material in their hands. We read stories from the continents we studied, South America and Africa, and took a day for Irish music, folk tales and nonsense rhymes. On the first day of Spring, we made a nature tray and talked about the different things we see in trees in different seasons.

Happy Spring to You All, Miss Maria

MISS MADDY'S CHILDREN'S HOUSE 2

We “rocked” March with a study of geology. Our first week, we built a working volcano that we shared with the other classes on the playground. We made a rock and fossil museum from my father’s collection including a large piece of obsidian. We painted with rocks, made sand sculptures in cups and colored sand art.

Easter week, we joined the school on the Friday Easter egg hunt after spending the week working on an Easter art and writing project to take home. Our writing challenges are a highlight of our week and we were excited to show off our skills.

With gratitude, Miss Maddy
