June 2016

TODDLER ROOM 2

May was a great month in the Toddler 2 class! We had lots of fun celebrating Cinco de Mayo by learning lots of new words in Spanish, and we even had a fiesta! We made cards and presents for our mommies for Mother's Day. We got pet chickens at school and we love to pet them and feed them and watch them in their coop. We planted seeds on the playground and were very excited when they started to sprout. We hope the flowers will start blooming soon. We've made lots of fun crafts this month including caterpillars, umbrellas and owls! We also finished up learning all the letters in the alphabet. It has been a great school year, and we all look forward to starting our Summer Themes in June!

Smiles, Miss Lindsay

CHILDREN'S HOUSE 2-2

It's been a fun month, though a little sad as we say good bye to some of our Kindergarten bound friends. We've enjoyed lots of fun projects, birthdays, and activities, but more than anything we're loving summertime's Splash Day!

With gratitude, Miss Maddy and Miss Marlene

CHILDREN'S HOUSE 1-2

Last month in CH 1-2 we finished up the alphabet and focused on the ocean, space, planting, reading and writing. Some highlights from the last few weeks would be making ocean bottles with water, oil and glitter, learning about space and planting seeds in the playground planters. Our pea plants are growing rapidly! It has been wonderful to watch them grow. All the children have been extremely excited about the summer themes and getting ready for splash day! Splash day is once a week, usually on Wednesdays. The slide has been a great addition to our playground time. All the kids really enjoy it. Please remember as summer approaches to apply sunscreen before drop off! We will be having outside drop offs in the summer. Thank you for everything you do!

Thank you for support and encouragement,

Miss Hayley

TODDLER ROOM 1

In Toddler Room 1, the month of May was filled with our toddlers favorite things. We researched dinosaurs, planted our garden, looked at animals under the sea, and learned about rocket ships. We had water play with different sea animals and did sound association with each of them. We also made dinosaur stomps and sang many dinosaur songs. The toddlers learned how to plant seeds and we learned the process of how a plant grows. This month was filled with many hands on activities that allowed our toddlers to feel more independent. We cannot wait until the Summer Themes start.

With Love,
Miss Kendalyn and Miss Jyoti

CHILDREN'S HOUSE 1-1

We had another WONDERFUL month in our moving class! This month we continued our alphabet and we have officially finished the school year. We have talked about mammals, wolfs, coyotes and seeds. We have planted seeds outside in our planter box, and have watched them grow and grow.. even though some got pulled up in the progress! We are moving into our summer themes and splash day! BRING ON THE SUMMER, WE ARE READY! This month we have also said goodbye to some friends.. but we got to say HELLO to new friends! We are moving on up!

with so much love,
Miss Tori and Miss Olivia

CHILDREN'S HOUSE 2-1

We ended our official school year by completing our pond. Our pond reflects all the lessons on pond life from the last several weeks. We read about ponds, studied turtles and by extension many other reptiles, learned about the frog's life cycle and the nature of amphibians and then finally we added our butterflies. Children benefit from projects that involve multiple steps and that they can see evolve. The first of our pond panels were painted months ago. We also made egg carton caterpillars to take home and many individual paintings and maps. Now we're looking forward to summer themes.

Happy Spring to You All, Miss Maria
