December 2017

TODDLER ROOM 2

November was a very fun month in the Toddler 2 class! We celebrated several birthday. Ford, Amelia, Taj and Ms. Lindsay all had birthdays in the month of November! We learned all about words that start with D and E this past month, and we also learned about the color red. We had fun playing with Play-Doh and working together on a group coloring page. We had lots of fun making crafts in November too. We did fingerpainting, made balloons, made handprint turkeys, and painted Do-A-Dot turtles. If you have any 8oz milk cartons, please drop them off in Ms. Lindsay's class. We are in need of them for a future craft project.

Smiles,
Ms. Lindsay and Ms. Katema

CHILDREN'S HOUSE 2-2

December is a busy time and we have a lot of fun activities planned that I hope you all can attend. On December 12th at 6pm, Ms. Laura and I would love to have all our classroom moms join us at Lucha Tigre. Parent Teacher conferences will be held on December 14th and 15th. Last, but not least, our holiday concert will be on December 21st at 11am. We hope you can work that into your schedule and stay afterwards to have lunch with us in the classroom. I'll be posting a sign up sheet for a potluck, if you'd like to bring something yummy to share. Looking forward to making some wonderful memories with you all this holiday season.

With gratitude,
Ms. Maddy and Ms. Laura

CHILDREN'S HOUSE 1-2

November was great! We learned the letters G, H, I and J. The children enjoyed the letter H and J the most. J was especially fun when we learned about Japan. We also learned about Thanksgiving, and we all discussed what we were thankful for. December is promising with all the kids getting excited for the holidays. We are going to be learning about Christmas, Hanukkah and Kwanza.

Thank you for support and encouragement,

Ms. Hayley and Ms. Pam

TODDLER ROOM 1

Hello everyone! As you know we just rocked out another month with new learning activities and continued our daily learning exercises. This month was filled with so much growth and excellent progress. We are still working our way through our alphabet each week and doing fun crafts along the way. We introduced new sensory activities using our soft touches & mighty squeezes. Thanksgiving was also amazing for our toddler room as we talked about the things we are kindly so grateful for such as Mommy, Daddy, toys and food!!! We also welcomed Mrs. Stefanie to our classroom as the new assistant, she was welcomed with open arms and plenty of hugs.

With Love,

Ms. Chelly and Ms. Stefanie

CHILDREN'S HOUSE 1-1

Children's House 1-1 has had a busy month. Along with getting "Winter Ready" we have been decorating the classroom for the holiday season. Decorations include gluing different colored snow flakes to cardboard, a great fine motor skill activity! Our holiday gift making continues and we are almost ready to take our special creations home to our parents....don't tell, its a surprise!

Our students continue to review their letters, numbers, colors and shapes.

We also had a fun sensory activity involving shaving cream! It felt so soft and squishy.

We say good by to the year 2017 and look forward to our growing and learning adventure continuing in 2018.

With so much love,

Ms. Jessica and Ms. Kirstie

CHILDREN'S HOUSE 2-1

In the month of November, Ch-2-1 made great progress in their challenges while expanding their creativity and diving into the world of science. The children worked on challenges from writing their letters and numbers to reading and mathematics. They also learned about different shapes, primary and secondary colors as well as sight words.

On Tuesdays, the children enjoyed art where they get to explore their creativity through using various materials such as string, paint, and paper. Some of the crafts included turkey hands, using string and glue to make balls, and paint and marbles to make vibrant and colorful paintings.

On Wednesdays, the children explored the world of science by learning about their taste buds through sampling various foods such as lemons, pretzels, and apple juice. The class was also able to test the laws of gravity by comparing various objects with their own catapults.

In addition, both music and yoga were enjoyed by all every week as the children got to sing and learn how to stretch and strengthen their bodies. Finally, we celebrated birthdays as several of our classmates turned five this month.

With gratitude,

Ms. Fiona and Ms. Tracey
