TODDLER ROOM 2

June was a very fun month for the Toddler 2 class. We enjoyed starting our Summer Themes. For “Got Health?” week we learned all about healthy habits. During “Wonders Of The World” week we learned about the natural and man-made Wonders of the World and had an International Food Celebration. We had fun with “Things That Go Fast” week where we learned about fast animals and fast vehicles and had fun making paper airplanes. Finally, we ended the month with “Time Machine Travelers” week where we learned about dinosaurs, listened to music from past decades, and got to Tie-Dye t-shirts. The Toddlers also had so much fun playing in the sprinkler during Splash Day!

Smiles,

Ms. Lindsay and Ms. Katema

CHILDREN'S HOUSE 2-2

What a wonderful summer we've been having so far in Children's House 2-2. We started by learning about how things are made and talked about everything from the sun to electricity to rainbows and shadows, not to mention John Loy's special souped up studio work truck. After that we got lost in space which is always a favorite with our friends. After that, we'll have a week of "polar opposites" and finally Myths and Legends.

Remember our Slip and Slide Graduation Party is on July 21st. We hope to see you there. As always, make sure your child has a change of clothes, sunscreen and toothpaste/brush to use at school.

With gratitude,

Ms. Maddy and Ms. Laura

CHILDREN'S HOUSE 1-2

During the month of June we discussed Healthy Habits, Wonders of the World, Things That Go Fast and Time Traveling to different decades. The highlight of the month was definitely tie-dying clothes during our time travel to the 60's/70's . The children loved being able to design their own shirt (or shorts) and wear them on Friday.

As a reminder, please apply sunscreen to your children every morning before they come to school. Sunscreen will be reapplied in the afternoon. Also, please remember their water bottles!

Thank you for support and encouragement,

Ms. Hayley and Ms. Pam

TODDLER ROOM 1

Hey Everyone!

Whew.. June was another fast and fun-tastic month for Toddler Room 1. We jumped right into our summer themes. Wonders of the World was one our favorite themes as we got to taste different foods & desserts from some of our friends' cultures. We enjoyed foods such as the coconut and sticky rice that Ms. Hser Ku brought in from her home country of Thailand. We also made wonderful "Hooked on Daddy" gifts for our dads for Fathers Day. Also, we can't forget our annual Tie Dye activity we did as an entire school! It was great and exciting to see so many cool and awesome T-shirts, shorts and towels that were created. But it is sad to say we had to say goodbye to our dear friend Javier and his parents as they relocated to another state. We will miss him! We are looking forward to a great July, toodles!!

With Love,

Ms. Chelly and Ms. Hser Ku

CHILDREN'S HOUSE 1-1

Children's House 1-1 is breezing through summer! We are already into our 6th week of Summer Themes. The month of July has seen us traveling through time in our "Time Machine Travelers" week. We rocked tie-dye t-shirts, which we made ourselves, as we celebrated the 60's. We listened to music from all ages and looked at pictures of things that people made thousands of years ago. We learned about how things are made, from the foods we eat to the houses we live in and cars we drive during our "How Its Made" week. We are currently traveling through space learning about our solar system, our galaxy and the universe as we go through our week of "Lost in Space". We cannot wait to see what the coming weeks will bring. Every other Thursday is "Splash Day" for our class, so look out for the weekly announcements to see if it is our turn.

With so much love,

Ms. Jessica and Ms. Bernali

CHILDREN'S HOUSE 2-1

June went by very quickly for CH-2, as the class completed many fun and interesting activities. With a new theme every week, the class has been very active and busy.

So far we have enjoyed Got Health,? Wonders of the World and Things That Go Fast for our themes. Some of the activities the class has had fun with include eating food from around the world, racing cars, and creating our own Egyptian neckless and dinosaur fossils.

In addition the children have enjoyed tie dye and splash days. Finally, we celebrated a birthday at the start of June. Our friend Rowan turned five years old and continues to grow every day!

With gratitude,

Ms. Fiona and Ms. Jay
